

AVC Prophetic Roundtable –summary – August 14th, 2005

Unconventional change: God is intent upon change. He wants to change us individually so He can change the Atlanta Vineyard. We're headed in the right direction, but the specific paths will change. God is going to take us off the highways and expressways and put us onto the byways where there will be more opportunities for ministry. He will do this with each of us personally, so we can be more effective as a church.

Unconventional preparation: We are to prepare for those that God is going to bring our way. God has to change in us the way we look at ministry to others. We don't have the heart for, the pockets for, some of the people He's bringing our way. The change is us.

Unconventional warfare: Both individually and corporately, we need to be prepared.

God is saying to us:

- be hyperactively compassionate
 - serve Him faithfully
 - share God's love in truth, in His unveiled reality
- see others with Christ's eyes, especially the "least of these"

1 John 1:7 – Pray that He will bring each of us together on the byways He has us on through the prism of His love, so we as a church may show His bright, pure light to the world.

Pray this for the church; call others to prayer.
